

◀ Radiator

Michelle 1620 ↑ x 500 ↔ YL,
radiator colour: Chrom, masking front colour: Metallic Red
radiator code: WGMIC162050 KCROYL
masking front code: WRCMIC078L KMRE

Valves and accessories

Integrated thermostatic valve, angled, left, Chrome
SLIM thermostatic head, Chrome
Integrated pipe-masking set, Chrome

251 COLORS
AND CHROME

MICHELLE

AVAILABLE SIZES

NOTE: THE COMPLETE PRODUCT CONSISTS OF TWO PARTS: THE RADIATOR AND THE MASKING FRONT.

1. RADIATOR

CENTRAL HEATING / DUAL FUEL

Connections:

CONFIGURATION CODE FOR A TOWEL RAIL OR RADIATOR ("WG" PRODUCT GROUP)

Product codes can be found in the product tables in both the catalogue and the price list. They provide basic information about the product and the configuration code contains information that complements the specification. When placing an order, the product codes should contain the fully completed configuration part. Part of the configuration code should be placed after the main product code as shown in the example below:

CODE DETAILS:

WG – water or dual fuel, central heating towel rail or radiator

E – the epoxy primer (additional coating increases the corrosion resistance of the product).

A CONFIGURATION CODE FOR AN ELECTRIC TOWEL RAIL OR RADIATOR FILLED WITH OIL AND FITTED WITH A HEATING ELEMENT (PRODUCT GROUP "WL")

Product codes can be found in the product tables in both the catalogue and the price list. They provide basic information about the product, and the configuration code contains information that complements the specification. When placing an order, the product codes should contain the fully completed configuration part. Part of the configuration code should be placed after the main product code as shown in the example below:

CODE DETAILS:

WL – electric towel rail or radiator filled with Oil and fitted with a factory installed heating element

E – the epoxy primer (additional coating increases the corrosion resistance of the product). The extra charge for the epoxy coating is 150 PLN net. In case you don't want the epoxy coating, the "E" should be replaced with an "X".

CONFIGURATION CODE FOR ACCESSORIES AND MASKING FRONT FOR MICHELLE, IRON, CASE SLIM RADIATORS WITH METAL AND MIRROR CASE (PRODUCT GROUP "WR")

Product codes can be found in the product tables in both the catalogue and the price list. They provide basic information about the product, and the configuration code contains information that complements the specification. When placing an order, the product codes should contain the fully completed configuration part. Part of the configuration code should be placed after the main product code as shown in the example below:

CODE DETAILS:

WR – configurable accessory

E – the epoxy primer (additional coating increases the corrosion resistance of the product).
